

Mast

MAST industries is inspired by the real-world company [CAT](#), and builds industrial drones for digging, welding, moving, and general engineering solutions. Their flagship drone, the Duzzy, is a general purpose drone that is fitted with various engineering tools. Repurposed in the Arena as a tough little drone with a backup shield and decent speed and turn rates, the Duzzy has been designed as a good starting drone to give players an opportunity to learn the ropes.
