## Our Games

Game	Description
<a href="#">Toxic Bunny</a>	Toxic Bunny is a fast paced platform action adventure game. Released on DOS in French, English, Polish and Dutch. Toxic Bunny was published by Vision Software here in South Africa and Softkey in Europe
<a href="#">The Tainted</a>	The Tainted is a action RPG Game set in the future. Built on an isometric engine that runs on Windows 95. Sporting devious AI, great particle effects and an array of multi player options never seen at the time.
<a href="#">Toxic Bunny HD</a>	Toxic Bunny is what would happen if the Looney Toons & Monty Python were heavily armed and thrown into a blender with the best (and worst) movies of the 90's and turned the results into a retro platform game.
<a href="#">Montez</a>	A psychological platformer puzzle game in which you take control two characters simultaneously.
<a href="#">BAD</a>	<a href="#">Battle Arena Drones</a> is an online multiplayer arena shooter which is still in development.

## Our Tools

We are in the habit of building tools to assist us in our own productions, some of these tools we have made available for use by other developers. If you need support or are just looking for some general information on the tools please follow the links below.

	Tool	Description
	<a href="#">Release Manager</a>	<a href="#">Release Manager</a> is a tool built to manage releases of your games across multiple platforms. It is geared towards ease of use and small download footprints. <a href="#">Release Manager</a> incorporates a Launcher designer as well as a powerful patching solution.
	<a href="#">Laur Studio</a>	<a href="#">Laur Studio</a> is a customizable studio for building lua solutions.
